Aluminum Welder/Assembler Job Summary

We have an immediate opening for an Aluminum Welder/Assembler. You must be able to set up welding machines and equipment (both MIG and TIG); read and interpret blueprints to understand the product's specifications; weld, cut, grind, and finish the product; and inspect your work for accuracy and quality. An Assembler is a professional who puts together cattle trailers and livestock trailers. Our perfect candidate has at least 1 year of welding experience and can work independently. All candidates must be able to pass a hands-on weld test and background check.

*Aluminum assemblers use fabricating techniques to construct and assemble products made from aluminum and other metals. Fabrication techniques may include drilling, cutting, lifting and installing hucks and rivets.

Responsibilities:

- Set up welding equipment and tools.
- Review blueprints for specifications
- Weld, cut and grind aluminum of different widths.
- Finish and inspect products for quality.
- ***Fabricator must be able to read a tape measure, have knowledge of radial arm saws, CNC Shears, and CNC press brakes.)**
- **Please bring your own hood and gloves**
